Superintendent Report

School Board Recognition Month

Crowley ISD School Board members are "Locally Elected, Community Connected" and the District joined school districts across the state in celebrating January as School Board Recognition Month.

Crowley ISD Trustees are extraordinary volunteers who play a crucial role in our schools and in our community. These public servants attend meetings, study detailed reports, listen to concerns and do the hard work to benefit the students and the community at large. They bring a variety of skills and backgrounds to their task, and they take their responsibilities seriously. And the whole community benefits from their vigilance in providing great schools.

Trustees receive no pay for their dedicated efforts. They not only volunteer their time and effort for our local schools, but they also speak up for our system of public education on a statewide level.

Each January, the District pauses during the month of January and regular activities to say THANK YOU to these dedicated volunteers. We appreciate their generous sharing of time and energy on behalf of our children and our communities.

Board may request the Superintendent to solicit potential names from staff, community, and students. The Board may also choose to establish a facility naming committee composed of community members appointed by the Board.

STEM Plus for All Activities

STEM Plus is helping fulfill Crowley's Vision 2025 to provide all students with choices and access to early STEM opportunities and secondary CTE pathways. This means students are challenged with STEM learning in the classroom and extracurricular activities to apply their learning to real-world applications. The Crowley ISD STEM Plus program focuses on building capacity in our learner profiles and their 21st century skills. STEM Plus focuses on student learning through applications of cultural relevance, collaboration, engineering design process, and communication skills.

Students are introduced to STEM and STEM careers through exploration and creative hands-on activities in Pre-K through 2nd grade. Students in 3rd through 5th grades engage in student-centered learning to identify projects for which they are passionate. At the four middle schools and two ninth grade campuses, students are able to select electives that pique their interests and lead them into a career pathway in high school. Students will also have access to after school programs or clubs through STEM Plus.

While the District is not releasing any sensitive details to the public regarding the audit in open session, a corrective action plan was put into place due to the findings. This audit is conducted as part of Governor Abbott's school safety directives for all school systems to help school districts identify how campuses can improve safety for our children and staff, such as ensuring exterior doors are locked.

The audit provides Crowley ISD with an opportunity to create a safer learning environment and is just one of the many actions that the district is taking to ensure that our schools are safe. Following the statement made by the District, no further action was required or taken.
