We are Crowley proud of Milton Williams, Crowley High School Class of 2017 alum and defensive tackle for the Philadelphia Eagles! On Sunday, February 9, Williams helped lead the Eagles to a 40-22 victory over the Kansas City Chiefs in Super Bowl LIX, delivering two sacks, a forced fumble, and a fumble recovery. His dedication, talent, and determination continue to inspire our entire Crowley community and demonstrate the power of hard work, perseverance, and unwavering commitment to excellence. We know the next generation of CISD champions were watching and envisioning their futures because of you. Congratulations, Milton, on this incredible achievement!

Crowley High School

On Tuesday, February 13, Crowley ISD welcomed one of its own, Mr. Billy Baylor, back to the court. Voted “Most Athletic” by his senior class in 1969, Mr. Baylor played all sports, leading the teams with his brothers, who were fondly known as “The Baylor Boys.” Mr. Baylor even picked up a part-time job, helping lay the foundation of Crowley High School. The Crowley High School family was over the moon to learn about Mr. Baylor’s journey through integration and welcomed him home with open arms to speak to students, sharing his story of love and acceptance even through adversity. He reminds us that Crowley is a family, and we are so very proud. Our Montessori students had a fun filled day celebrating Lunar New Year on January 30. RFP-052-2024-2027 Technology – Interactive Display Boards

A committee made up of teachers from all grade levels, school administrators, Finance, Technology and the Office of Academic Excellence, was formed to select the best interactive display for our K-12 environment. They identified five key benefits:

1. Enhanced Student Engagement: Interactive displays make lessons more engaging by allowing students to interact directly with the content.
2. Multisensory Learning: These displays support various learning styles by incorporating visual, auditory, and kinesthetic elements, helping students better understand and retain information.
3. Collaboration: Interactive displays facilitate group activities and collaborative learning, enabling students to work together on projects and share ideas.
4. Immediate Feedback: Teachers can provide instant feedback on student work, helping to identify areas for improvement and reinforce learning.
5. Inclusive Education: Features like text-to-speech and adjustable font sizes make interactive displays adaptable for students with different abilities, promoting inclusive education.

This proposal will put an interactive display in every classroom in the district, transforming our classrooms into dynamic and engaging learning environments, fostering a deeper understanding and enthusiasm for learning among students.

RFP-025-052-2025-00 closed Feb. 11, 2025. It will be evaluated using the CISD score card and presented at the Regular Board Meeting on Feb. 27 as a Consideration and Possible Action Item.
