To and Through (T3) and
additional of CCMR Advisors at
High School and Middle School

Program Evaluation Process

College and Career Readiness Findings and Recommendations

Post-secondary Career Readiness

Research Questions:

How does our _____ [elementary, middle, and high school] curriculum prepare for students for post secondary careers?

Finding:

Crowley ISD does not have a formal, written plan of career development experiences for grades PK-12

Recommendation:

Develop a written, formal plan for career experiences for all students in grades PK-12 to ensure post-secondary career readiness

No Additional Funding Required Related to Finding

Post-secondary Academic Readiness

Research Questions:

How is college persistence data tracked and utilized?

Finding:

College persistence data in CISD is not tracked and utilized through a formal process.

Recommendation:

Create a systemic approach to reviewing and development action plans based on college persistence data.

No Additional Funding Required Related to Finding

College and Career Readiness

Research Questions:

How do we define college and career culture and how do we measure AVID's impact on both (tracking)?

Finding:

Crowley ISD does not have a formal process to measure the impact of AVID on creating a college and career culture at campuses.

Recommendation:

Create a district framework to review the impact and implementation of AVID by campus,

No Additional Funding Required Related to Finding
