Members of the Crowley ISD Board of Trustees Crowley Independent School District
512 Peach Street
Crowley, Texas 76036

Dear Members of the Board of Trustees:

The Comprehensive Annual Financial Report of the Crowley Independent School District (Crowley ISD) for the year ended June 30, 2022 is hereby submitted. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District.

In our opinion, the data, as presented, is accurate in all material aspects; is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included in this report.

Management's Discussion and Analysis (MD&A) immediately follows the report of the independent auditor's and provides a narrative introduction, overview, and analysis to accompany the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

THE REPORTING ENTITY AND ITS SERVICES

The Crowley Independent School District is one of 1,219 public and charter school districts in the State of Texas. Crowley ISD covers approximately 54.6 square miles in the south-central portion of Tarrant County and approximately 4 square miles in the north central portion of Johnson County. The District's boundaries encompass the City of Crowley and portions of the cities of Fort Worth and Edgecliff Village along with many acres of ranch and farmland. The District is experiencing enrollment growth as well as increases in assessed valuations due to the new residential and commercial construction.

The District has a vibrant, diverse student population, an excellent array of programs, strong curriculum, access to an array of intellectual resources and taxpayers who support both growth and innovation. A dedicated School Board, a skilled administration and a professional, dedicated and resourceful staff, as well as an involved community, make Crowley ISD an educational district of choice. In 2021-2022, the District employed more than 2,000 professional and support personnel.

Crowley ISD is committed to excellence, constantly improving and refining both instructional programs and managerial operations in the interest of effectiveness, productivity, transparency and economy.

Our standards for students and staff members are high, and we strive constantly to raise them higher. Our intent is to play a decisive role in ensuring the future success of the dynamic community we service.

FINANCIAL INFORMATION

District management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit - As a recipient of federal financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the District. As a part of the District's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

The results of the District's single audit for the fiscal year ended June 30, 2022 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

Accounting System and Budgetary Control

The school district's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board on governmental accounting in its 1998 Codification of Government Accounting and Financial Reporting Standards, and subsequent statements and interpretations. The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the Texas Education Agency Financial Accountability System Resource Guide.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of internal accounting structure. The internal accounting structure is designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. All internal control evaluations occur within the above framework. We believe that the District's internal accounting structure adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

Budgetary control is initiated at the onset when the Board of Trustees adopts the annual appropriated budget. To ensure budgetary compliance, the Texas Education Agency (TEA) and the District have established spending regulations and policies. For all administrators with line item or program responsibility, TEA regulations set the level of budgetary control at the major functional expenditure level. Budgetary control is more restrictive at the District level where administrators are held responsible for maintaining and managing their budgets at the detail line item level. All revisions at the function level are approved by the Board of Trustees.

Cash Management

The District has a cash management program to maximize the use of the District's cash resources. The cash management policy of the District is to ensure the availability of cash to meet operational needs and to invest surplus cash in a manner to preserve and protect capital but also provide adequate liquidity and earn a market rate of return. Surplus cash on hand was either deposited in the District's depository bank or invested in one of two local government investment pools pursuant to the Interlocal Cooperation Act of 1989.

Deposits with the depository bank were in accounts secured at the balance sheet date by FDIC coverage and additional collateral. The deposits were deemed collateralized under Texas Law and the Texas Education Agency.

The District complies with the School Depository Act by executing a depository agreement with a banking institution for a period of two fiscal years plus two optional two-year extensions. Local banks in the immediate surrounding area are given preference. Competitive proposals are taken with state law setting the general terms of the request for proposal.

ACKNOWLEDGEMENTS

The preparation of this report could not have been accomplished without the services of the entire staff of the finance department. In addition, the Board of Trustees should be commended for its continued support and leadership.

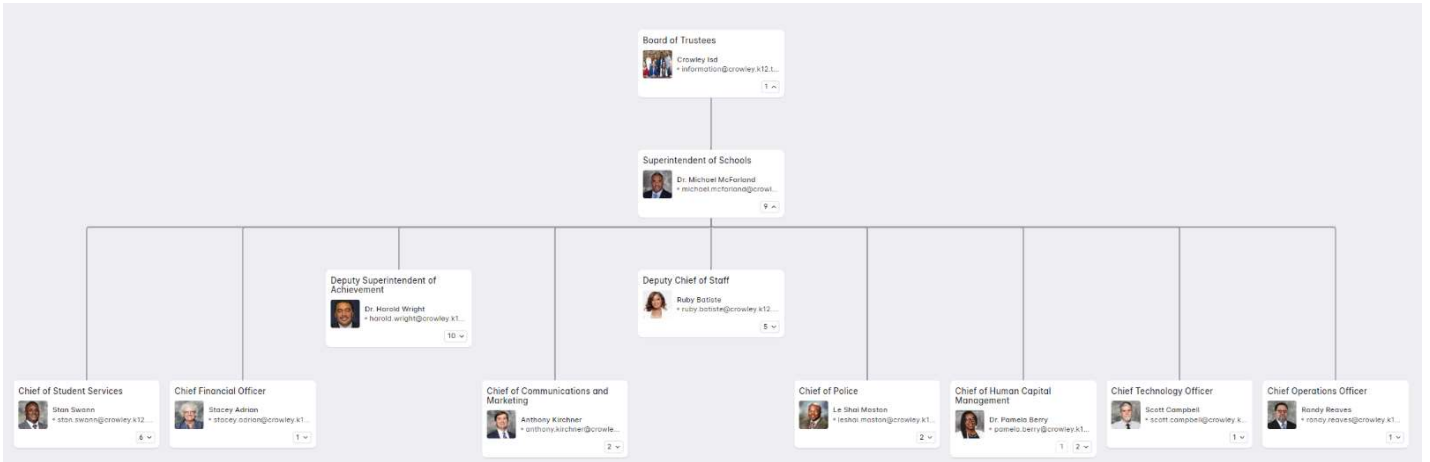

Respectfully submitted,

Independent Auditor's Report

To the Board of Trustees of
Crowley Independent School District
Crowley, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Crowley Independent School District (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information as listed in the table of contents on pages 8–13 and 58–85 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Board of Trustees of
Crowley Independent School District

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The, combining and individual nonmajor fund financial statements, schedules – required by the Texas Education Agency, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedules – required by the Texas Education Agency, and the schedule of expenditures of federal awards are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedules – required by the Texas Education Agency and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information included in the Annual Comprehensive Financial Report (ACFR)

Management is responsible for the other information included in the ACFR. The other information comprises the introductory section, statistical section, and Schedule of Required Responses to Selected School FIRST Indicators but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited)

This section of the Crowley Independent School District (the "District") financial report, presents our discussion and analysis of the District's financial performance for the year ended June 30, 2022. It should be read in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

Liabilities and deferred inflows of the District exceeded assets and deferred outflows by \$56,095,866 (total net position) for governmental activities and assets exceeded liabilities by \$79,799 for business-type activities. Restricted net position consists of \$40,112,787 for debt service, and \$9,126,330 for grant funds.

At fiscal year end, the unassigned fund balance in the General Fund was \$42,383,023. Non-spendable fund balance for inventories and prepaids was \$208,847 and assigned for one-time, non-recurring instructional and extra-curricular expenses and District strategic initiatives was \$1.5 million. The District reported an increase to fund balance in the general fund of \$1,534,966 due to conservative budgeting and spending along with conducting prior year property value audits.

The fund balance in the Debt Service Fund increased to \$58,672,473, which still provides for a debt service payment of \$41.6 million in the 2023 fiscal year. The Capital Projects Fund reported a fund balance of \$48,980,931, which represents the balance remaining for projects authorized by the voters.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) Management's Discussion and Analysis, 2) the basic financial statements, and 3) required supplementary information. The basic statements include two kinds of statements that present different views of the District.

The first two statements are Government-wide Financial Statements, the Statement of Net Position and the Statement of Activities, which provide both long-term and short-term information about the District's overall financial status reflect.

The remaining statements are fund financial statements that report the Districts operations in more detail than the government-wide statements by providing information about the Districts most significant funds. The governmental funds statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. Proprietary fund statements offer short and long-term financial information about the activities the government operates like businesses, such as self-insurance services. Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide additional data needed for full disclosure in the government-wide statements or the fund financial statements. The notes are followed by a section of required supplementary information and other supplementary information that further explains and supports the information in the basic financial statements. The section labeled other supplementary information contains data used by the Texas Education Agency (TEA) and other monitoring or regulatory agencies.

Government-wide Financial Statements. The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all the District's assets, deferred outflows, liabilities, and deferred inflows. All the current period's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The government-wide statements report the District's net position and how the net position has changed. Net Position is the difference between the District's assets and deferred outflows, and liabilities and deferred inflows, and is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, one needs to consider additional non-financial factors such as changes in the District's tax base, staffing patterns, enrollment and attendance.

Governmental activities. Most of the District's basic services are reported here, including instruction, instructional support, instructional leadership, school leadership, student transportation, food service, extracurricular activities, general administration, maintenance, and so forth. Property taxes, state foundation funds, tuition, fees, and state and federal grants are the major source of financing for these activities.

Business-type activities. The District charges a fee to "customers" to help cover all or most of the cost of services it provides for community education.

Fund financial statements. Fund financial statements provide a detailed short-term view of the most significant funds-not the District as a whole. Laws and contracts require the District to establish some funds while the District's administration establishes other funds to help control and manage money for particular purposes. The District's three kinds of funds use different accounting approaches.

Governmental funds - Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

Proprietary funds - The District maintains two proprietary fund types. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for worker's compensation. The internal service funds are included within governmental activities in the government-wide financial statements.

Fiduciary funds – The District is the custodian or fiduciary, for resources held for the benefit of others such as the student activities fund. Fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The resources accounted for in these funds are not available to finance the District's operations and are thus excluded from the District's government-wide financial statements.

Government-Wide Financial Analysis

Statement of Net Position

Net position of the District's governmental and business-type activities increased from a deficit of \$77.4 million to a deficit of \$56.1 million. The increase in net position was primarily due to a significant increase in deferred inflows of resources, primarily related to TRS pension, and a decrease in net pension liability in CY. Current assets primarily increased due to the ongoing construction projects and the use of bond funds to finance those projects.

The District's statement of governmental activities reflects total revenues for the year ended June 30, 2022 of \$240.8 million, an increase of \$12,744,199 and the total cost of all programs and services of \$219.5 million, a decrease of \$23.9 million. The net result is an increase in net position of \$21.3 million. The following impacted total expenses:

- Maintenance and operations increased \$1.9 million due to the continued COVID requirements.
- Debt service interest decreased \$28.3 million due to the refunding of bonds completed in the prior fiscal year.
- Student support increased \$1.6 million due to an increase in wrap around services for our students.

The cost of all governmental activities this year was \$219.5 million. However, as shown in the Statement of Activities, the amount that taxpayers ultimately financed for these activities was \$125.7 million because some of the costs were paid by those who directly benefited from the programs (\$2.5 million) and by grants and contributions (primarily state funding) not restricted to specific programs (\$69.2 million).

The District's statement of activities for business-type reflects charges for services of \$43,764. With community education costs of \$25,413, the net position for business-type activities increased \$18,351 for ending net position of \$79,799.

The District's Funds

As the District completed the year, its governmental funds reported a combined fund balance of \$160.2 million, which is a decrease of \$29.2 million from last year's total of \$189.4 million. The decrease is composed of the following: The General Fund balance increased \$1.5 million from \$42.6 to \$44.1 million from regular operations, with a continued healthy fund balance of 26.9% of current year expenditures in the general fund. The District found the General Fund tax revenue to align perfectly with the budget. The state revenue in the General Fund was the primary driver for the increase in the fund balance due to the Average Daily Attendance assistance from the state. The fund balance in the Debt Service Fund increased \$7.0 million to \$58.7 million as a result of an increased tax base. The Capital Projects Fund decreased \$40.8 million from \$89.8 million to \$49.0 million as a result of construction projects underway and Other Governmental Funds balance increased \$3.0 million primarily from Food Service operations.

General Fund Budgetary Highlights

Over the course of the year, the Board of Trustees revised the District's budget from time to time. Both revenue and expenditure budgets were increased this year by \$2 million. At year end, there were no significant budgetary variances between the final amended budget and actual results. Overall revenue was slightly higher than projected at 100.2%. There were no overages by function level for the expenditure side of the budget. Overall the expenditures were slightly lower than anticipated at 94.3%.

Capital Asset and Debt Administration

Capital Assets. At the end of 2022, the District had \$516.8 million invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. Net increases (decreases) for the year were as follows:

Land	\$ 23,832
Construction in progress	(51,482,483)
Building and improvements	103,008,034
Furniture and equipment	2,482,895
Accumulated depreciation	<u>(11,534,901)</u>
 Total	 <u><u>\$42,497,377</u></u>

More detailed information about the District's capital assets is presented in Note 3. B. to the financial statements.

Debt. At year-end, the District had \$532.4 million in bonds outstanding versus \$527.2 million last year, an increase of \$5.2 million. More detailed information about the District's long-term liabilities is presented in Note III. C. to the financial statements.

Economic Factors and Next Year's Budgets and Rates

- During March of 2020, the Corona Virus (COVID-19) impacted the United States, changing the way students are educated across the nation. Crowley ISD provided virtual learning as an option for our students as well as face to face learning. Moving into the 2021-2022 school year, the District did not offer virtual learning for our students. The in-person learning is proving to be successful for our students' progress as well as accounting for our Average Daily Attendance (ADA).
- General Fund local property tax revenues are budgeted at \$88.8 million using a collection rate of 99%. Due to HB3, the tax rate was produced by TEA after the state certified values were submitted for review, five weeks after CISD Board of Trustees approved the General Fund Budget. The General Fund tax rate for CISD is \$.9429.
- With ongoing guidance and clarification regarding the Corona Virus, the Average Daily Attendance (ADA) for CISD was slightly more challenging. The District was using a formula provided by TEA to calculate the ADA for the Spring of 2022. After complying with the requirements, TEA calculated the ADA assistance for CISD. Therefore, CISD received funding for 14,653.5 ADA. This is a slight decrease from the ADA Hold Harmless used in the prior year of 14,986. The District budgeted for growth in the ADA for the 2022-2023 school year with an ADA of 15,500.
- With the expansion of the Chisholm Trail Parkway on the western edge of Crowley ISD, the District is closely monitoring the growth in the district to anticipate future needs. The District continues to work with a demographer to be proactive in the planning necessary to support the quality education that is expected for CISD.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office at Crowley Independent School District, 1900 Crowley Pride Drive, Fort Worth, TX 76134, (817) 297-5800.

Exhibit C-2R

Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2022

TOTAL NET CHANGE IN FUND BALANCE - GOVERNMENTAL FUNDS (C-2)	\$ (29,210,127)
Internal service funds are used to charge the costs of certain activities to individual funds. The net income of internal service funds are reported with governmental activities, so the net effect is to increase net position.	1,144,745
Current year capital additions are expenditures in the fund financial statements but appear as increases in capital assets in the government-wide financial statements.	54,032,278
Depreciation is not expensed in fund financial statements because it does not require the use of current financial resources. The effect of current year depreciation is to decrease net position.	(11,534,901)
Current year principal payments on non-current liabilities are expenditures in the fund financial statements, whereas they are reported as reductions of non-current liabilities in the government-wide financial statements. The net effect of current year principal paid on bonds payable is to increase net position.	6,597,527
Premiums on bonds payable are reported as other sources of funds in the fund financial statements when the bonds are issued. Deferred charges on refunding are presented as deferred outflows of resources on the government-wide statements and amortized over the life of the related debt. Amounts are reported net of amortization on the government-wide financial statements. The net effect of these items is to increase net position with amortization of of premium increasing net position by \$3,793,848 and deferred charges decreasing by \$2,076,690.	1,717,158
Current year issuance of bonds of \$11,785,000 and premium proceeds \$367,987 are other financing sources and uses to fund financial statements, whereas they are reported as reductions and additions of noncurrent liabilities in the government-wide financial statements. The net effect of current year bond and premium proceeds is a decrease in net position.	(12,152,987)
Changes in the net pension and other post employment benefit liability, and related deferred inflows and outflows not recognized on the fund financial statements under the modified accrual basis are recognized on the accrual basis in the government-wide financial statements. The effect of the change is to increase net position with the change due to pensions increasing net position by \$2,568,348 and other post employment benefit increasing net position by \$2,033,353.	4,601,701
Revenue not recognized on the fund financial statements under the modified accrual basis are recognized on the accrual basis in the government-wide financial statements. The effect of the change in deferred outflow of resources is to increase net position.	247,095
Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements an interest expenditure is reported when due. The net effect of recording an increase in accreted interest of \$8,368,457 and a decrease in accrued interest of \$2,508,062 increased net position.	5,860,396
CHANGE IN NET POSITION - GOVERNMENTAL ACTIVITIES (B-1)	<u>\$ 21,302,885</u>

Crowley Independent School District

Notes to the Financial Statements

Note 1. Summary of Significant Accounting Policies

A. Reporting Entity

Crowley Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and it complies with the requirements of the appropriate version of Texas Education Agency's (TEA) *Financial Accountability System Resource Guide* (the Resource Guide) and the requirements of contracts and grants of agencies from which it receives funds.

The District is an independent political subdivision of the State of Texas governed by the Board of Trustees, a seven member group, elected by the public. It has the authority to make decisions, appoint administrators and managers, and significantly influence operations and is considered a primary government. As required by generally accepted accounting principles, these financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions as part of the District's financial reporting entity. No other entities have been included in the District's reporting entity. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity, which is in accordance with GASB Statement No. 14, *The Financial Reporting Entity*, as revised by GASB Statement No. 39 and GASB Statement No. 61.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information about the District as a whole. These statements include all activities of the primary government. The effect of interfund activity has been removed from these statements.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs and grants that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, such as taxes and investment earnings, are presented as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. In the fund financial statements, the accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity.

The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance or net position, as appropriate, revenues, and expenditures or expenses, as appropriate. Following is a description of the various funds:

Governmental Funds

Governmental funds are those funds through which most governmental functions are typically financed.

General Fund. The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund is considered a major fund for reporting purposes.

Crowley Independent School District

Notes to the Financial Statements

Debt Service Fund. The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest on all long-term debt of the District. The primary source of revenue for debt service is local property taxes. The debt service fund is considered a major fund for reporting purposes.

Capital Projects Fund. The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The capital projects fund is considered a major fund for reporting purposes.

Other Governmental. The other governmental funds include revenues that are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. The restricted or committed proceeds of specific revenue sources comprise a substantial portion of the inflows of these special revenue funds. Most federal and some state financial assistance are accounted for in special revenue funds.

Proprietary Funds

The proprietary funds account for services that are generally fully supported by user fees. The District has the following types of proprietary funds:

Enterprise Funds. The enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The funds are reported as "Business-type Activities" in the government-wide financial statements. The District uses this fund to account for its community education programs because the community education programs are self-supporting and do not require subsidies from the general fund.

Internal Service Funds. The internal service funds are used to account for revenues and expenses related to services provided to parties inside the District. These funds facilitate distribution of support costs to the users of support services on a cost-reimbursement basis. Because the principal users of the internal services are the District's governmental activities, this fund type is included in the "Governmental Activities" column of the government-wide financial statements. The District has internal service funds for its worker's compensation and health self-insurance plans.

Fiduciary Funds

Custodial funds. The District accounts for resources held for others in a custodial capacity in custodial funds. The funds are used to account for assets held by the District as an agent for student and other organizations. These funds were previously reported as agency funds. The District reports additions to and deductions from custodial funds.

Private Purpose Trust Funds. The District uses these funds to account for donations received from private individuals and foundations which have the stipulation that the funds be used for a specific purpose. These funds are not budgeted.

C. Measurement Focus and Basis of Accounting

The government-wide statements and the proprietary fund statements are accounted for using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operations of these activities are included on the statement of net position. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Crowley Independent School District

Notes to the Financial Statements

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing resources) and decreases (i.e., expenditures and other financing uses) in fund balance.

The District utilizes the modified accrual basis of accounting in the governmental fund statements. Under the modified accrual basis of accounting, revenues are recognized in the accounting period when they are susceptible to accrual (i.e., when they are measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues available if they are collected within 60 days of the end of the current period. Revenues susceptible to accrual include charges for services and interest on temporary investments.

Property taxes and interest associated with the current period are all considered to be susceptible to accrual and have been recognized as revenues of the current period. Other receipts and other taxes become measurable and available when cash is received by the government and are recognized as revenue at that time.

Grant funds are considered to be earned when all eligibility requirements have been met, (including time requirements) to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received in advance, they are recorded as unearned revenues until earned. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore to the extent the District has not complied with the rules and regulations governing the grants, refunds may be required and receivables subject to change.

Using the modified accrual basis of accounting, expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for interest on long-term debt, which is recognized when due.

The private purpose trust funds and custodial funds are reported using the economic resources measurement focus and the accrual basis of accounting. Reporting is oriented towards providing accountability for the sources, uses, and balances or resources held in trust for others, therefore, the additions and deductions in fiduciary balances are reported. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the funds' statements of net position. The funds' equity is segregated into restricted net position and unrestricted net position.

D. Assets, Liabilities, and Net Position or Fund Balance

1. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Crowley Independent School District

Notes to the Financial Statements

The District reports all investments at fair value, except for money market investments and investment pools. Investment positions in external investment pools that meet specific criteria are reported using the pools' share price, which generally maintains a stable \$1 per share value. A board of directors comprised of local government officers, including participants of the pools, performs regulatory oversight to the external investment pools.

The District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, Texas Governmental Code. In summary, the District is authorized to invest in the following:

- Direct obligations of the U.S. Government
- Fully collateralized certificates of deposit and money market accounts
- Government investment pools and commercial paper

2. Receivables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as due to/from other funds.

Due from other governments is primarily comprised of amounts to be received related to federal and state funding sources, and is considered entirely collectible.

3. Property Taxes

All taxes due to the District on real or personal property are payable at the Office of the Tax Assessor-Collector and may be paid at any time after the tax rolls for the year have been completed and approved, which is no later than October 1. Taxes are due by January 31, and all taxes not paid prior to this date are deemed delinquent and are subject to such penalty and interest. Property taxes attach as an enforceable lien on property as of January 1 each year. Taxes are levied on October 1 and are payable prior to the next February 1. District property tax revenues are recognized when collected.

4. Inventories

The costs of governmental fund type inventories are recorded as expenditures when consumed (i.e., the consumption method). Inventory is recorded at average cost.

5. Prepaid Items

Prepaid items indicate payments made by the District in the current year to provide services occurring in the subsequent fiscal year. The consumption approach provides for the initial reporting of the item as an asset while recognition of the expenditure when the item is actually used or consumed.

6. Capital Assets

Capital assets, which include land, buildings, furniture, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Crowley Independent School District

Notes to the Financial Statements

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Description Useful Life</u>	<u>Estimated</u>
Buildings and improvements	15-30 years
Furniture and equipment	3-15 years

7. **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

8. **Pensions**

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The District's general fund has been used in previous years to liquidate the net pension liability.

9. **Other Post-Employment Benefits**

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account. The District's general fund has been used in previous years to liquidate OPEB liability.

10. **Fund Balance**

Fund balances in governmental funds are classified as follows:

Nonspendable – Represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid items) or legally required to remain intact (such as principal of a permanent fund).

Restricted – Represents amounts that are constrained by external parties, constitutional provisions, or enabling legislation.

Crowley Independent School District

Notes to the Financial Statements

Committed – Represents amounts that can only be used for a specific purpose because of a formal action by the District's Board of Trustees (the Board). Committed amounts cannot be used for any other purpose unless the Board removes those constraints by taking the same type of formal action. Commitments are approved through the adoption and amendment of the District's budget or a formal resolution stating the commitment. The commitment must be made prior to year end.

Assigned – Represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board or by an official or body to which the Board delegates the authority. The Board has retained this authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself. Assignments can be made at any time.

Unassigned – Represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed, or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed, then assigned funds, and finally unassigned funds.

11. Net Position

The District classifies net position into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net investment in capital assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – Consists of constraints placed on net position used through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – Consists of net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

E. GASB Pronouncements implemented by the District

GASB Statement No. 87, Leases (GASB 87), establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this statement were originally effective for reporting periods beginning after December 15, 2019; however, issuance of GASB Statement No.95, Postponement of the Effective Dates of Certain Authoritative Guidance (GASB 95), extended the effective date of GASB 87 to reporting periods beginning after June 15, 2021, with earlier application encouraged. GASB 87 was implemented in the District's 2022 financial statements with no impact to amounts reported under previous standards, and with minimal impact.

Crowley Independent School District

Notes to the Financial Statements

F. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles (GAAP), requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula becomes available. Availability can be as late as midway into the next fiscal year. It is reasonably possible that adjustments may be made to the foundation revenue by the state.

G. Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the Resource Guide. The TEA requires school districts to display these codes in the financial statements filed with the TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

H. Future Accounting Pronouncements

GASB Statement No. 91: *Conduit Debt Obligations* was issued in May 2019. This Statement established a single method of reporting conduit debt obligations by issuers to eliminate diversity in practice. This Standard becomes effective for the District in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 94: *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* was issued in March 2020. This Statement establishes standards of accounting and financial reporting for PPPs and APAs for governments. This Standard becomes effective for the District in fiscal year in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 96: *Subscription-Based Information Technology Arrangements* was issued in May 2020. This Statement establishes standards of accounting and financial reporting for Subscription-based information technology arrangements by a government end user (a government). This Standard becomes effective for the District in fiscal year in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 97: *Subscription-Based Technology Arrangements* was issued in May 2020. This Statement established standards of accounting and financial reporting for Subscription-based information technology arrangements by a government end user (a government). This Standard becomes effective for the District in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 101, *Compensated Absences (GASB 101)*, improves the information needs of financial statements users by updating the recognition and measurement guidance for compensated absences under a unified model and amending certain previously required disclosures. The requirements of this statement are effective for reporting periods beginning after December 15, 2023, with earlier application encouraged. GASB 101 will be implemented in the District's fiscal year 2025 financial statements and the impact has not yet been determined.

Crowley Independent School District

Notes to the Financial Statements

Note 2. Stewardship, Compliance, and Accountability

Annual budgets are adopted on a basis consistent with GAAP for the General Fund, Debt Service Fund, and National School Breakfast and Lunch Program. The original budget is adopted by the District prior to the beginning of the year. The legal level of control is the function code stated in the approved budget. Appropriations lapse at the end of the year, excluding capital project budgets. Supplemental budget appropriations were made for the year.

Note 3. Detailed Notes on All Funds

A. Cash and Cash Equivalents

Custodial Credit Risk – Deposits. In the case of deposits, this is the risk that in the event of a bank failure the District's deposits may not be returned to it. The District's investment policy requires funds on deposit at the depository bank to be collateralized. The District's highest bank balance was during the month of July 2021 in which the combined checking and time deposits held with JPMorgan Chase Bank were entirely covered by FDIC insurance limits of \$250,000, with collateralized securities pledged of \$32,409,112, and letter of credits held in the District's name for \$14,800,000. The bank balance of the District's deposits was \$20,972,042, of which \$20,722,042 exceeded FDIC insurance limits and was collateralized by securities pledged and letter of credit held in the District's name.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

At year end, the District's investments were as follows:

Cash and Cash Equivalents	Maturity	Amount	Rating
Lone Star Investment Pool	60 days	\$ 153,428,916	AAA
MBIA Texas Class Investment Pool	99 days	5,764,255	AAAm
Carrying Cash Deposits	N/A	15,638,779	N/A
Total cash and cash equivalents		\$ 174,831,950	

The Lone Star Investment Pool (the Pool) is organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Pool is governed by an 11 member Board of Trustees, consisting of individuals representing entities participating in the Pool. The fair value of the District's position in the Pool is the same as the value of the Pool shares.

The MBIA Texas Investment Pool (the TexClass) is organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. TexClass is governed by a 5 member Board of Trustees, consisting of individuals representing entities participating in the Pool. The fair value of the District's position in the Pool is the same as the value of the TexClass shares.

Crowley Independent School District

Notes to the Financial Statements

Custodial Credit Risk – Investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At year end, the District was not exposed to custodial credit risk. All of the investment pools are rated AAA or better by Standard and Poor's Rating Services as of year-end.

Interest Rate Risk. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. By policy the District shall use final and weighted-average maturity limits and diversification to reduce exposure to changes in interest rates. One of the ways that the District manages its exposure to interest rate risk is by investing mainly in investment pools which purchase a combination of shorter term investments with an average maturity of less than 60 days thus reducing the interest rate risk. The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio.

Concentration of Credit Risk. The District's investment policy limits investments in money market mutual funds rated as to investment quality not less than AAA by Standard & Poor's.

There are no limits in investments for one issuer per instrument type allowed by the District's policy as long as the individual investment type is under maximum limits. The following maximum limits, by instrument, are established for the District's total portfolio:

1. U.S. Treasury Securities	100%
2. Agencies and instrumentalities	85%
3. Certificate of Deposit	100%
4. Repurchase Agreements	20%
5. Money Market Mutual Funds	50%

Excluding flexible repurchase agreements for bond proceeds investments.

The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

The Lone Star and Texas CLASS investment pools are external investment pools measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. Investment pools measured at amortized cost are exempt from the fair value reporting requirements of GASB Statement No. 72, *Fair Value Measurement*. Both Lone Star and TexClass maintain requirements that no more than 5% of their portfolios can be held with one issuer with the exception of the United States Government. Both also have one day notice periods and no maximum transaction amounts. Restrictions on redemptions may only be imposed in the event of a general suspension on trading in a major securities market, general banking moratorium or a state or federal emergency that impacts the liquidity of the portfolio.

Crowley Independent School District
Notes to the Financial Statements

B. Capital Assets

Capital asset activity for the year ended June 30, 2022 was as follows:

	Beginning Balances	Increases	Transfers	Decreases	Ending Balances
Capital assets, not being depreciated:					
Land	\$ 23,672,267	\$ 23,832	\$ -	\$ -	\$ 23,696,099
Construction in progress	115,048,992	50,648,895	(102,131,378)	-	63,566,509
 Total capital assets not being depreciated	 138,721,259	 50,672,727	 (102,131,378)	 -	 87,262,608
Other capital assets:					
Buildings and improvements	448,137,653	876,656	102,131,378	-	551,145,687
Furniture and equipment	25,517,904	2,482,895	-	-	28,000,799
 Total other capital assets	 473,655,557	 3,359,551	 102,131,378	 -	 579,146,486
Less accumulated depreciation for:					
Buildings and improvements	(122,170,725)	(9,851,325)	-	-	(132,022,050)
Furniture and equipment	(15,898,064)	(1,683,576)	-	-	(17,581,640)
 Total accumulated depreciation	 (138,068,789)	 (11,534,901)	 -	 -	 (149,603,690)
 Capital assets, net	 \$ 474,308,027	 \$ 42,497,377	 \$ -	 \$ -	 \$ 516,805,404

Depreciation was charged to governmental functions as follows:

	Governmental Activities
11 Instruction	\$ 10,655,844
12 Instructional resources/media services	17,182
23 School leadership	7,745
31 Guidance, counseling, and evaluation services	3,612
33 Health services	1,681
34 Student (pupil) transportation	248
35 Food services	132,745
36 Extracurricular activities	245,293
41 General administration	23,905
51 Plant maintenance and operations	389,882
52 Security and monitoring services	44,112
53 Data processing services	12,652
 Totals	 \$ 11,534,901

Crowley Independent School District

Notes to the Financial Statements

C. Long-term Liabilities

The following is a summary of changes in the District's total governmental long-term liabilities for the year. In general, the District uses the debt service fund to liquidate governmental long-term liabilities.

Series	Interest Rate Range	Beginning Balances	Additions	Reductions	Ending Balances	Amounts Due Within One Year
Governmental activities:						
Bonds payable						
Series 1993 Refunding	0%	\$ 998,871	\$ -	\$ 361,534	\$ 637,337	\$ 332,142
Series 2002 Refunding	3-5.125%	774,812	-	-	774,812	-
Series 2010 Refunding	3-4%	3,870,000	-	290,000	3,580,000	300,000
Series 2010	2.25-4%	1,435,000	-	1,435,000	-	-
Series 2011 Refunding	2-4%	1,360,132	-	540,133	819,999	820,000
Series 2013	2-4%	4,480,000	-	830,000	3,650,000	860,000
Series 2014 Refunding	2-4%	10,290,000	-	-	10,290,000	-
Series 2014B Refunding*	.4-4%	5,600,000	-	-	5,600,000	-
Series 2015A Refunding	2-5%	21,160,000	-	-	21,160,000	-
Series 2015B Refunding*	4-5%	28,448,399	-	8,400	28,439,999	-
Series 2015C	2-5%	4,835,000	-	-	4,835,000	-
Series 2016B Refunding*	2-5%	5,155,000	-	-	5,155,000	-
Series 2017	3.25-5%	87,060,000	-	-	87,060,000	-
Series 2018	4%	78,250,000	-	-	78,250,000	-
Series 2019 Refunding*	2-4%	53,005,972	-	124,185	52,881,787	141,788
Series 2019	2-5%	75,115,000	-	-	75,115,000	-
Series 2020	1.7 to 2.2%	145,329,801	-	3,008,275	142,321,526	761,663
Series 2021	3%	-	11,785,000	-	11,785,000	6,045,000
		527,167,987	11,785,000	6,597,527	532,355,460	9,260,593
Other liabilities:						
Bond premiums		62,715,209	367,987	3,793,848	59,289,348	4,030,514
Accreted interest		57,924,719	3,867,989	12,236,446	49,556,262	13,031,004
Net pension liability		46,196,809	-	24,540,042	21,656,767	-
OPEB liability		45,797,079	-	60,862	45,736,217	-
Total government activities long-term liabilities		\$ 739,801,803	\$ 16,020,976	\$ 47,228,725	\$ 708,594,054	\$ 26,322,111

*Advance refunding bonds that were issued to refund prior year outstanding debt before the callable date of the principal payments. At the end of the fiscal year 2021, there was outstanding debt that was refunded with advance refunding bonds of \$134,145,000 which is considered defeased and not outstanding debt on the Statement of Net Position.

In October 2021, the District issued Unlimited Tax Building Bonds, Taxable Series 2021 for \$11,785,000 in face value and a total premium of \$367,987. The proceeds of the bonds will be used for construction and for payments of offering costs associated with the bonds.

Crowley Independent School District

Notes to the Financial Statements

Debt service requirements by fiscal year on the District's outstanding bonds were as follows:

Year Ending June 30,	Principal	Interest	Total Requirements
2023	\$ 9,260,593	\$ 32,330,603	\$ 41,591,196
2024	10,951,114	29,332,719	40,283,833
2025	13,565,031	20,680,564	34,245,595
2026	13,493,589	20,876,406	34,369,995
2027	15,125,370	19,214,662	34,340,032
2028-2032	64,984,763	110,149,537	175,134,300
2033-2037	113,180,000	62,956,261	176,136,261
2038-2042	127,155,000	46,521,762	173,676,762
2043-2047	130,205,000	23,081,847	153,286,847
2048-2050	34,435,000	1,778,700	36,213,700
Totals	\$ 532,355,460	\$ 366,923,061	\$ 899,278,521

D. Interfund Transactions

The interfund balances and transfers were as of June 30, 2022:

Due to	Due from	Amount	Purpose
General	Special revenue	\$ 4,447,843	Short term loans
Debt service	General fund	507,698	Short term loans
Capital projects fund	General fund	49,837	Short term loans
Special revenue	General fund	33,726	Short term loans
Total		\$ 5,039,104	

Note 4. Other Information

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District purchases commercial insurance to cover general liabilities insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

B. Workers' Compensation Insurance

During the fiscal year ended June 30, 2022, employees of the District were covered by a workers' compensation insurance plan (the plan). Contributions are made based upon rates established for the District's various types of employees.

Crowley Independent School District

Notes to the Financial Statements

The contract between the District and the third party administrator, Alamo Insurance Group (AIG), is renewable annually, and the terms of coverage and costs are included in the contractual provisions. The District is protected against unanticipated catastrophic individual loss by stop-loss coverage carried through a commercial insurer licensed to do business in Texas in accordance with the Texas Insurance Code. Stop-loss coverage is in effect for specific occurrences exceeding \$400,000 and an aggregate limit of \$1,000,000.

AIG has performed an evaluation of claims submitted for incidents occurring prior to June 30, 2022, and has projected open claims and incurred but not reported claims will cost \$208,196. The following is a reconciliation of changes in the aggregate liabilities for claims included in Accounts Payable for the last three fiscal years:

<u>Fiscal Year</u>	<u>Beginning of Year Accrual</u>	<u>Current Year Estimates</u>	<u>Claims Payments</u>	<u>End of Year Accrual</u>
2019	\$ 238,986	\$ 99,842	\$ 227,617	\$ 111,211
2020	111,211	364,668	295,845	180,034
2021	180,034	131,345	241,390	69,989
2022	69,989	369,045	230,838	208,196

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other economic and social factors.

C. Other Liabilities

The Tax Reform Act of 1986 instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed or not performed correctly, it could result in a substantial liability to the District. The District engages an arbitrage consultant to perform the calculations in accordance with IRS rules and regulations.

D. Defined Benefit Pension Plans

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

Crowley Independent School District

Notes to the Financial Statements

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_archive_cafr.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592 information about the TRS' fiduciary net position is available in a separately-issued report.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, where the three highest annual salaries are used. The normal service retirement is at age 65 with five years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with five years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). Ad hoc postemployment benefit changes, including ad hoc COLAs, can be granted by the Texas Legislature as noted in the Plan description above.

Contributions

Employee contribution rates are set in state statute, Texas Government Code 825.402. Contribution requirements are established or amended pursuant to Article XVI, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than six percent of the member's annual compensation and a state contribution rate of not less than six percent and not more than ten percent of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	Contribution Rates	
	2022	2021
Member	8.00%	7.70%
Non-employer contributing entity (state)	7.80%	7.50%
Employers (District)	7.80%	7.50%

Crowley Independent School District

Notes to the Financial Statements

The contribution amounts for the District's fiscal year 2022 are as follows:

Employer contributions	\$	3,629,076
Member contributions		9,298,691
NECE on-behalf contributions		6,134,560

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- Public education employer contribution – all public schools, charter schools and regional education service centers must contribute 1.5% of the member's salary beginning in September 1, 2019, gradually increasing to 2.0% on September 1, 2024.

Crowley Independent School District

Notes to the Financial Statements

Actuarial Methods and Assumptions

The actuarial valuation of the total pension liability was performed as of August 31, 2020. Update procedures were used to roll forward the total pension liability to August 31, 2021 and was determined using the following actuarial methods and assumptions:

Actuarial cost method	Individual entry age normal
Asset valuation method	Market Value
Single discount rate	7.25%
Long-term expected rate of return	7.25%
Municipal bond rate as of August 2021	1.95%. Source for the rate is the Fixed Income Market Data/Yield Curve/Date Municipal Bonds with 20 Years to maturity that include Only federally tax-exempt Municipal bonds as reported In Fidelity Index's "20-Year Municipal GO AA Index
Last year ending August 31 in projection period (100 years)	2120
Inflation	2.30%
Salary increases	3.05% to 9.50% including inflation
Ad hoc post-employment benefit changes	None
Active mortality rates	Based on 90 percent of the RP 2014 Employee Mortality Tables for males and females with full generational mortality. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projection scale Municipal GO AA Index scale U-MP.

The actuarial methods and assumptions are primarily based on a study of actual experience for the three year period ending August 31, 2017 and adopted in July 2018.

Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity will be made at the statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Crowley Independent School District

Notes to the Financial Statements

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2021 are summarized below:

Best estimates of arithmetic real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2021 are summarized below:

Asset Class*	Target Allocation**	Long-Term Expected Geometric Real Rate of Return***	Expected Contribution to Long Term Portfolio Returns
Global equity:			
U.S.	18.00%	3.60%	0.94%

Notes to the Financial Statements

Discount Rate Sensitivity Analysis

The following table presents the District's proportionate share of the TRS net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
The District's proportionate share of the net pension liability	\$ 47,323,474	\$ 21,656,767	\$ 833,277

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of \$21,656,767 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

The District's proportionate share of the collective net pension liability	\$ 21,656,767
State's proportionate share that is associated with the District	<u>36,608,421</u>
Total	<u><u>\$ 58,265,188</u></u>

The net pension liability was measured as of August 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2020, rolled forward to August 31, 2021. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 30, 2020 through August 31, 2021.

At the measurement date of August 31, 2021, the District's proportion of the collective net pension liability was 0.0850403486% which was a decrease from its proportion measured as of August 31, 2020 of 0.0012153818%.

Changes of Assumptions Since the Prior Measurement Date

There were no changes of assumptions that affected measurement of the total pension liability during the measurement period.

Change of Benefit Terms Since the Prior Measurement Date

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended June 30, 2022, the District recognized negative pension expense of \$2,568,348 and revenue of \$146,356 for support provided by the State.

Crowley Independent School District

Notes to the Financial Statements

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_archive_cafr.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). The Board of Trustees of TRS is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare Parts A&B coverage, with 20 to 29 years of service for the basic plan and the two optional plans.

The premium rates for retirees are reflected in the following table:

TRS-Care Plan Premium Rates

	Medicare	Non-medicare
Retiree*	\$ 135	\$ 200
Retiree and spouse	529	689
Retiree* and children	468	408
Retiree and family	1,020	999

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act.

Crowley Independent School District

Notes to the Financial Statements

Rates for such plan fiscal years are as follows:

	2022	2021
Active employee	0.65%	0.65%
Non-employer contribution entity (state)	1.25%	1.25%
Employers/District	0.75%	0.75%
Federal/private funding*	1.25%	1.25%

*Contributions paid from federal funds and private grants are remitted by the employer (District) and paid at the State rate.

The contribution amounts for the District's fiscal year 2022 are as follows:

District contributions	\$ 926,270
Member contributions	721,722
NECE on-behalf contributions (state)	1,240,995

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether or not they participate in the TRS Care OPEB program*). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

In addition, the State of Texas contributed \$368,372, \$380,925, and \$462,105 in 2022, 2021, and 2020, respectively, for on-behalf payments for Medicare Part D.

TRS-Care received a supplemental appropriation from the State of Texas as the Non-Employer Contributing Entity in the amount of \$5.5 million in fiscal year 2021 for consumer protections against medical health care billing by certain out-of-network providers.

Actuarial Assumptions

The actuarial valuation of the total OPEB liability was performed as of August 31, 2020. Update procedures were used to roll forward the total OPEB liability to August 31, 2021.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The following assumptions used for the valuation of the TRS-Care OPEB liability are identical to the assumptions employed in the August 31, 2021 TRS annual pension actuarial valuation:

Demographic Assumptions	Economic Assumptions
Rates of mortality	General inflation
Rates of retirement	Wage Inflation
Rates of termination	Salary increases
Rates of disability	

See Note 4.D. for detail on these assumptions. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

Crowley Independent School District

Notes to the Financial Statements

The initial medical trend rates were 8.50% for Medicare retirees and 7.10% for non-Medicare retirees. There was an initial prescription drug trend rate of 8.50% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25 % over a period of 12 years.

The following methods and additional assumptions were used in the TRS-Care OPEB valuation:

Actuarial cost method	Individual entry age normal
Inflation	1.95%
Aging factors	Based on plan specific experience
Election rates	Normal Retirement; 65% participation prior to age 65 and 40% after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age- adjusted claims costs.
Ad hoc post-employment benefit changes	None

Discount Rate

A single discount rate of 1.95% was used to measure the total OPEB liability at August 31, 2021. This was a decrease of 0.38% in the discount rate since the August 31, 2020 measurement date. The plan is essentially a "pay-as-you-go" plan, and based on the assumption that contributions are made at the statutorily required rates, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments to current members and therefore, the single discount rate is equal to the prevailing municipal bond rate. The source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2021.

Discount Rate Sensitivity Analysis. The following table presents proportionate share of the TRS-Care net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that was 1% less than and 1% greater than the discount rate that was used (1.95%) in measuring the net OPEB liability.

	1% Decrease (0.95%)	Current Discount Rate (1.95%)	1% Increase (2.95%)
District's proportionate share of the net OPEB liability to the Single Discount Rate Assumption	\$ 55,168,417	\$ 45,736,217	\$ 38,312,769

Healthcare Cost Trend Rates Sensitivity Analysis. The following table presents the District's proportionate share of net OPEB liability using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's proportionate share of the net OPEB liability to the Healthcare Cost Trend Rate Assumption	\$ 37,044,820	\$ 45,736,217	\$ 57,397,913

Crowley Independent School District

Notes to the Financial Statements

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2022, the District reported a liability of \$45,736,217 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$ 45,736,217
State's proportionate share of the net OPEB liability associated with the District	<u>61,276,339</u>
Total	<u><u>\$ 107,012,556</u></u>

The net OPEB liability was measured as of August 31, 2021 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of August 31, 2020 rolled forward to August 31, 2021. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2020 through August 31, 2021.

At August 31, 2021, the employer's proportion of the collective Net OPEB Liability was 0.1185660333% which was an decrease of 0.0019065754% from proportion measured as of August 31, 2020.

Changes of Assumptions Since the Prior Measurement Date

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period.

- The discount rate changed from 2.33% as of August 31, 2020 to 1.95% as of August 31, 2021. This change increased the total OPEB liability.

Change of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

For the fiscal year ended June 30, 2022, the District recognized negative OPEB expense of \$4,294,918 and revenue of \$2,261,565 for support provided by the State.

Crowley Independent School District

Notes to the Financial Statements

At June 30, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u> </u>	<u> </u>
Differences between expected and actual economic experience	\$ 1,969,161	\$ 22,139,529
Changes of assumptions	5,065,823	9,672,363
Net difference between projected and actual earnings on pension plan investments	50,268	613
Changes in proportion and differences between District contributions and proportionate share of contributions (cost-sharing plan)	3,366,936	1,171,088
District contributions after measurement date	835,020	-
	<u> </u>	<u> </u>
Totals	<u><u>\$ 11,287,208</u></u>	<u><u>\$ 32,983,593</u></u>

\$835,020 reported as deferred outflows of resources related to OPEB resulting from District contributions paid subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources (deferred inflows of resources) related to OPEB will be recognized in OPEB expense as follows:

Years Ending June 30,	
<u> </u>	
2022	\$ (4,328,594)
2023	(4,329,714)
2024	(4,329,408)
2025	(3,125,511)
2026	(1,495,639)
Thereafter	(4,922,539)
	<u> </u>
Total	<u><u>\$ (22,531,405)</u></u>

F. Shared Services Arrangements

The District is the fiscal agent for a Shared Services Arrangement (SSA) which provides a regional day school for the deaf to various member districts. All services are provided by the fiscal agent. According to guidance provided in TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in a special revenue fund and will be accounted for using Model 3 in the SSA section of the Resource Guide.

Crowley Independent School District

Notes to the Required Supplementary Information - Continued

Note 1. Budgetary Data

The Board of Trustees adopts an appropriated budget on a GAAP basis for the General Fund, Child Nutrition Fund, which is included in the Federally Funded Grant fund, and the Debt Service Fund. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund budget appears in Exhibit G-1 and the other two budgets are in Exhibit J-2 and J-3.

The following procedures are followed in establishing the budgetary data:

1. Prior to June the District prepares a budget for the next succeeding fiscal period beginning July 1st. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.
3. Prior to July 1, the budget is legally enacted through resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment is approved before the fact, is reflected in the official minutes of the Board, and is not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. Significant amendments were made to the following functional areas:

Function	Increase (Decrease)
Instruction	\$ (1,783,487)
School leadership	401,150
Student (pupil) transportation	500,000
Plant maintenance and operations	2,000,000

4. Budgeted amounts are as amended by the Board. All budget appropriations lapse at period end.
5. The TEA requires these budgets to be filed with the Agency. The budget should not exceed expenditures in any functional expenditure category under TEA requirements. The original and final amended versions of these budgets are included in this report.

Crowley Independent School District

Notes to the Required Supplementary Information - Continued

Note 2. Net Pension Liability and OPEB Liability

The following factors significantly affect trends in the amounts reported for the District's proportionate share of the net pension liability and OPEB liability:

Changes in actuarial assumptions and inputs

Measurement Date August 31,	Net Pension Liability		Net OPEB Liability
	Discount Rate	Long-Term Expected Rate of Return	Discount Rate
2021	7.250%	7.250%	1.950%
2020	7.250%	7.250%	2.330%
2019	7.250%	7.250%	2.630%
2018	6.907%	7.250%	3.690%
2017	8.000%	8.000%	3.420%
2016	8.000%	8.000%	
2015	8.000%	8.000%	
2014	8.000%	8.000%	

Changes in demographic and economic assumptions

For Measurement Date August 31, 2021 – Net Pension Liability and Net OPEB Liability:

- There were no changes in assumptions since the prior measurement date for Net Pension Liability.
- The discount rate changed from 2.33 percent as of August 31, 2020 to 1.95 percent as of August 31, 2021. This change increased the Total OPEB liability.

Changes in benefit terms

For Measurement Date August 31, 2021 – Net Pension Liability and Net OPEB Liability:

- There were no changes in benefit terms since the prior measurement date for Net Pension Liability and Net OPEB Liability.

This Page Intentionally Left Blank

Statistical Section

This part of the Crowley Independent School District's Annual Comprehensive Financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents	Page
Financial Trends	89
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	
Revenue Capacity	97
These schedules contain information to help the reader assess the factors affecting the District's ability to generate its property and sales taxes.	
Debt Capacity	109
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt, and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	112
These schedules offer demographic and economic indicators to help the reader understand how the District's financial activities take place and to help make comparisons over time and with other governments.	
Operating Information	115
These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial reports for the relevant year.

**Independent Auditor's Report on Internal Control over
Financial Reporting and on Compliance and Other Matters Based on an
Audit of Financial Statements Performed
in Accordance with Government Auditing Standards**

To the Board of Trustees of
Crowley Independent School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Crowley Independent School District (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 4, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Board of Trustees of
Crowley Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Federal
Program and on Internal Control over Compliance in
Accordance with the Uniform Guidance**

To the Board of Trustees of
Crowley Independent School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Crowley Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The Board of Trustees
Crowley Independent School District

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards
For the Fiscal Year Ended June 30, 2022

Note 1. Summary of Significant Accounting Policies

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Crowley Independent School District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements. National School Lunch Program non-cash commodities were received and are valued at \$782,627.

Note 2. De Minimis Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate as allowed under Uniform Guidance.

Note 3. Reconciliation to Basic Financial Statements

Presented below is a reconciliation of federal revenues:

Total expenditures of federal awards per Exhibit K-1	\$ 37,083,425
Additional federal revenues reported in governmental funds:	
School Health & Related Services	<u>2,967,188</u>
Total federal revenues per Exhibit C-2	<u><u>\$ 40,050,613</u></u>

 School FIRST Indicators (Unaudited)
 For the Fiscal Year Ended June 30, 2022

Exhibit L-1

<u>Data Control Codes</u>	<u>Responses</u>
SF1 Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2 Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF3 Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies? (If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issue, the school district is considered to not have made timely payments.) Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 days from the date the warrant hold was issued. Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.	Yes
SF4 Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5 Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6 Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7 Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district's fiscal year end?	Yes
SF8 Did the school board members discuss the school district's property values at a board meeting within 120 days before the school district adopted its budget?	Yes
SF9 Total accumulated accretion on capital appreciation bonds included in government-wide financial statements at fiscal year-end?	\$ 49,556,262
